ALEXANDER GLOBAL STRATEGIES

AGS SIGHTLINE™
EVENT & VENUE RISK ASSESSMENT
U.S. DOMESTIC LOCATIONS

AGS SIGHTLINE™

KNOW THE LOCATION. KNOW THE EVENT.

Event and venue intelligence for the places high-net-worth principals actually go — the gala, the premiere, the fundraiser, the board dinner, the private residence — built for family offices and the protective teams responsible for that address.

ASSESSMENT. AWARENESS. PROTECTION.

EVENT & VENUE READINESS, BUILT ON ACTIONABLE INTELLIGENCE

AGS SIGHTLINE™ assesses the specific U.S. location where a high-net-worth principal will attend an event — a theater, gala venue, conference center, private club, or residence. Each assessment converts current, sourced information into clear risk ratings, visual analysis, and protective measures phased across **arrival, event, and departure**.

WHAT EVERY ASSESSMENT DELIVERS

VENUE & ACCESS PROFILE
Construction and occupancy, entrances and exit routes, arrival and drop-off points, access control, and guest flow at the event address.

THREAT & RISK MATRIX
Criminal, terrorism, civil-disruption, and insider streams rated for a named principal at that venue on that date — not a generalized city score.

SOFT TARGET & PERIMETER
Quarter-mile radius review of adjacent occupancies, demonstration history, transit nodes, standoff distance, and street-level exposure.

RESPONSE & PROTECTIVE MEASURES
Nearest precinct and trauma center, medical planning, phased recommendations from arrival through departure, plus indicators and escalation triggers.

COVERAGE THROUGH THE EVENT

24/7 GLOBAL SECURITY OPERATIONS CENTER
Coverage continues through arrival, the event, and departure.

PERSISTENT MONITORING
Continuous open-source coverage of local media, incident feeds, social platforms, and demonstration activity around the venue.

NEAR REAL-TIME ALERTING
Emerging threats, protest activity, and access or road changes pushed to the host and protective team as conditions develop.

RESPONSE COORDINATION
Live analyst support, defined escalation paths, and coordination with law enforcement, venue security, and vetted local resources.

THE SIGHTLINE ADVANTAGE

NEARBY	VISUAL	NATIONWIDE	PHASED
SOFT TARGET RADIUS	VENUE & RISK ANALYSIS	U.S. VENUE COVERAGE	ARRIVAL TO DEPARTURE

ASSESS THE VENUE. PREPARE THE MOVEMENT. PROTECT THE PRINCIPAL.

Schedule a confidential consultation for U.S. event and venue risk assessment.
